Drive Compliance, Improve Reporting

By automating spend management – for travel approval and booking, expense entry and approvals, procurement, product catalog, invoicing, audit and reporting – you ensure your employees use preferred vendors and follow policy. And the most up-to-date, real-time reporting lets you make more informed budget and spending decisions.

Easy to Use, Simple to Manage

Apptricity's mobile and web interfaces enable quick and easy creation, tracking, approval and audit for reports, requisitions, catalogs, invoices and payments.

Reduce Costs, Increase Productivity

Research shows that a fully automated travel and expense report costs 74% less to process than a manual report. With that kind of saving, you can redeploy staff to more urgent work - saving money and eliminating manual data entry forever.
