## Automate and Streamline Invoice Management to Discover Exceptional Visibility and New Cost Savings

---

“It’s essential that we maintain positive supplier relationships and the Apptricity solutions have enabled us to not only communicate better with our suppliers, but leverage cost savings from process improvements in our interactions.”

- Project Manager,  
Major Retail Electric Provider

Apptricity Spend Management is an integrated mobile solution suite that brings a new level of efficiency to your organization’s invoice, P2P, expense, and travel and expense reporting operations. By streamlining core finance functions, you save time and money by automating your purchasing, invoice, expense and travel management.

The power of Apptricity Invoice goes well beyond scanning and automation of invoice management, to reduce paperwork. Available on its own or as part of our Spend Management Suite, Apptricity Invoice helps you increase vendor discounts up to 500%, when you are able to leverage expiration notices. You’ll save time by eliminating paper file searches and in keeping processes running smoothly with auto-generated alerts to anyone causing delays, in real-time. Reduce invoice processing costs by as much as 67% and ensure vendor discounts when you automate the entire invoice management process.

Apptricity is a leading global provider of IoT and M2M mobile enterprise solutions for supply chain management and spend management.

### Savings Beyond Scanning

Apptricity Invoice does much more than convert paper to digital images. Enter invoices by OCR, EDI, email, data entry or spreadsheet; store them online; route them for approval and audit; and then process them for payment. You save time, money and valuable AP resources by automating and streamlining your entire process, from creation to settlement.

### Simplify Compliance — Your Way

Our software uses your business rules to enforce compliance with your corporate policies. Your AP team is free to concentrate on more valuable tasks.

### Automate and Improve Your Supply Chain

Bridge the gap between you and your suppliers with Apptricity Invoice. You’ll improve visibility, expedite order delivery, and submit timely payments to ensure valuable vendor discounts.

## Automate Invoice Entry

With no more paper, you can enter invoices online, by OCR scan, EDI, spreadsheet or email. Apptricity Invoice detects duplicate invoices and tracks vendor discounts to maximize savings.

## Your Workflow, Your Rules

Invoices are routed for approval and audit, using the business rules that fit your needs. Our powerful rules engine enforces them down to the line item and distribution level, for all of your GL accounts. And approvers get reminders, so you'll meet commitment dates for every transaction.

## Improve Vendor Collaboration

Get the most value from your suppliers. Apptricity Invoice tracks all vendor discounts with expiration notices and real-time reporting, to ensure you keep all the savings you negotiate.

## Complete Audit

Exception and rule-based audits can be performed before or after processing, with real-time visibility and permanent transaction history. Our easy-to-use interface makes auditing simple.

## End-to-End Visibility

When implemented with Apptricity Procure-to-Pay, you can link invoices with POs, PRs and other documents online, to ensure your order matches shipping, receiving and payment. And our reporting ensures you have real-time status updates 24/7.

## Superior Customer Service

Apptricity has worked closely with the world's largest, most complex companies and organizations to meet their specific and custom needs. We look forward to solving your greatest challenges.
