

Spend Management Solutions

## Solution Overview

### Simplify and Automate Procurement, Expense Control and Reporting For Improved Spend Visibility and Compliance

---

“It’s essential that we maintain positive supplier relationships and the Apptricity solutions have enabled us to not only communicate better with our suppliers, but leverage cost savings from process improvements in our interactions.”

- Project Manager,  
Major Retail Electric Provider

Apptricity Spend Management is an integrated mobile solution suite that brings a new level of efficiency to your organization’s travel and expense, procure-to-pay, invoice and financial reporting operations. By streamlining core finance functions, it saves time and money through automation of purchasing, invoicing and expense management.

Your employees and managers get an easy-to-use, drag-and-drop web and mobile interface that improves productivity and promotes compliance to your processes and preferred vendors. Your finance team gets real-time reporting and full ERP and accounting system integration to track costs like never before. And Apptricity’s flexible Jetstream platform ensures that your system will be configured to your business rules and workflows, providing an easy and painless transition for your company.

#### **Drive Compliance, Improve Reporting**

Automating spend management – including travel approval and booking, expense entry and approvals, procurement, product catalog, invoicing, audit and reporting – ensures your employees use preferred vendors and follow policy. And comprehensive real-time reporting lets you make better, faster budget and spending decisions.

#### **Easy to Use, Simple to Manage**

Apptricity’s mobile and web interfaces enable quick and easy creation, tracking, approval and audit of reports, requisitions, catalogs, invoices and payments.

#### **Reduce Costs, Increase Productivity**

Research shows that a fully automated travel and expense report costs 74% less to process than a manual report. Now you can redeploy Finance staff onto more high-value and urgent work, save money, and eliminate error-prone manual data entry.

*Easily enter, submit and track reports online from anywhere to improve reporting, compliance and employee satisfaction*

## Apptricity Travel & Expense

### Complete and Easy Expense Management

Apptricity Travel & Expense is mobile and web application software that automates end-to-end travel and expense management. Simplify your entire approval and payment process while you drive compliance to your best practices by automating pre-trip approval, travel booking, expense report creation, corporate and P-card charges, report submission and approval, report audit and reimbursement tracking.

Meet your duty of care requirements with visibility into itineraries and travel details — before, during and after a trip has occurred.

Reduce your processing costs, eliminate paper and get going quickly with our easy-to-use drag-and-drop interface and convenient mobile app.

Easily customize to your processes and workflow: our Administration portal lets you instantly customize your implementation without software development.

*Increase efficiency, visibility and control over corporate purchasing, invoice management and payment*

## Apptricity Procure-To-Pay

### Improve Efficiency and Compliance

Procurement inefficiencies and manual processes waste time and money. Worse yet, when users bypass difficult-to-use systems, they waste even more time and don't comply to pre-negotiated vendor programs, increasing costs overall.

Apptricity Procure-to-Pay automates your entire purchasing and invoicing process in one easy to use system that is fully integrated with your ERP and legacy systems.

From goods and services requisitioning – including an integrated catalog – to automated invoice management and payments, you gain complete control of your procurement stream and payments in a system that your employees actually will use.

Maximize your sourcing negotiations and ROI with in-depth reports, analyses and KPIs, enabling you to implement negotiated discounts and drive purchases from contracted vendors more quickly.

## Why Choose Apptricity Spend Management Software

- + A uniform interface and single login for all spend management functions boosts employee productivity and satisfaction
- + Apptricity processes millions of transactions and reports per year
- + Apptricity has offered enterprise spend management and supply chain software solutions since 1999

### Total Integration with Your Systems

Our software integrates with any Enterprise Resource Planning (ERP) system, including Oracle, SAP, Banner, PeopleSoft, Lawson, Epicor, Sage and QuickBooks. We also quickly develop custom interfaces for your legacy systems. And our Agile implementation lets us implement your system on-site or via SaaS – incredibly rapidly.

**Learn how Apptricity will improve your spend management visibility and compliance while increasing employee efficiency and reducing costs.**
